Sexual Harassment Cell

The institution has constituted a committee as per the guidelines of Maharashtra Government rules for prevention of sexual harassment of girl students headed by the Principal and women staff members of the institution. We are proud to state that not even a single case of sexual harassment occurred in the institution since its establishment in 1984. The institution is well-known for the strict discipline and vigilance on its campus and its vicinity. This has resulted into consistently increasing female students enrollment for various courses on the campus. The members of committee are :
